

My Legend Cub

A sentimental journey

Memories of me and my Legend Cub

Barnstorming

Every day as the sun lights the way it beckons me, the adventurous pilot. The sky looms large and my Legend Cub longs to stretch its wings. Above farmer's fields curiosity calls, anyone for a ride?

Our First Date!

I'll forever remember the day we first met. You grinned at me as the hanger door lifted. Under raised eyebrows, your engine a bellow for that first breath. Oh the friendship nurtured since that day.

Dad's gone Retro!

Olive drab and stars adorn the Legend Combat. For Dad, it's a reminder of liaison duties shared with "Grasshopper." Something to behold still today when looking back and scouting down.

Taking a Dip

Lakes, rivers and liquid glass are best when met with gentle aplomb. The Legend Cub takes its cue, a thirst for fun, and a parched desire for taking a drink.

Daisy-clipping

The surly bounds of Earth are green with envy as fields of daisies await your touch. Calm skies and blue backgrounds meet daisy-clipping joy when the Legend Cub makes their acquaintance.

Hedge-hopping

Lighter than the winds as your gentle grip sets the course, the Legend Cub knows every field, plain and level surface in sight is merely a hedge-hop away from a perfect end to a pleasurable flight.

Debriefing

Flight planning feeds the soul. A memory prepares to be etched. No better reality takes hold as debriefing a fond journey creeps into the depths of a joyous heart.
